

# All about Lucy Walshe

I have worked in Swindon as an Educational Psychologist for over 6 years. I currently work as a Locum and Private Educational Psychologist.

I have been an Educational Psychologist for 25 years, having worked in Ealing, the Isle of Wight and Swindon.

*This is me*

I love music and play the 'cello in Swindon Symphony Orchestra.

My favourite activity is walking my Golden Retriever in forests.

I have two daughters – both currently at university.

I love nature and anything that is creative.

I have always loved psychology and thinking about what motivates people. I have always enjoyed working with young people, having been a teacher prior to training to be an Educational Psychologist.

My favourite part of the job is talking with young people and their families and working towards making positive change.

The best way to communicate with me is via email at:
